

FLUSH / SEMI-FLUSH MOUNT

Gridlock Open-Frame Flush Mounts

A grid of cylindrical glass shades gives the Gridlock mounts a bold, architectural silhouette close to the ceiling. The open frame — finished in Black with Satin Gold accents — puts a statement bulb on display and casts warm, even light down and out across the room, with no long stem to interrupt a lower ceiling. Three formats cover a tight or standard ceiling: a low-profile 15-in. flush, a 15-in. semi-flush with more presence, and a wider 21-in. five-light semi-flush for a larger room. A graphic, considered fixture that turns a plain ceiling into a focal point.
