

PAR FLOOD

Fortis PAR Flood Lights

Bright, even light pours from the Fortis PAR Flood Lights, compact fixtures built for accent and security use on homes and commercial exteriors alike. The single-PAR model runs on one efficient PAR30 bulb for simple spec and easy future replacement, while the twin-PAR model throws wide, even light across driveways, yards, and loading zones — doubling coverage from one mounting point, with an integral photocell for dusk-to-dawn operation. Both mount in minutes to a wall or eave and hold up to nightly use, in Bronze or White to match the building.
