

LED FLAT PANEL

DPS Commercial LED Flat Panel

Bright, uniform light spreads edge to edge from the DPS LED Panel, built to drop straight into a standard ceiling grid in offices, classrooms, and commercial spaces. Field-selectable color temperature and selectable wattage let installers match the panel to the room without stocking multiple SKUs, and smooth 0–10V dimming lets facilities dial output to the task and time of day. The flat, low-profile design replaces flickering fluorescent troffers with efficient, even output that stays glare free across the whole face.

PRODUCT DETAILS

FAMILY
DPS

PRODUCT TYPE
Selectable LED Panel Light

MATERIAL
Aluminum · PC lens (White)

MOUNTING
Grid / surface / suspended (2x2 & 2x4)

LOCATION RATING
Dry

CERTIFICATIONS
ETL Listed

LIGHT SOURCE (LED)

LIGHT SOURCE
Integrated LED

CCT
Selectable 2700–5000K (5CCT)

CRI
80 CRI

DIMMABLE
Yes

INPUT VOLTAGE
120V

INSTALLATION

INSTALLATION
Grid / surface / suspended (2x2 & 2x4)

FIELD ADJUSTABLE
Field-selectable CCT switch
