

OUTDOOR LIGHTING SYSTEM

Hex Modular Outdoor Lighting

The Hex system builds cafe-style ambiance across patios, pergolas, and outdoor walls with warm, even light that runs on a low-voltage, weather-resistant backbone. A control hub powers and syncs the run — with app and smart-home scene control — while modular light bars and tool-free snap connectors let you route and extend the layout exactly as the space demands. Built in the USA of domestic and imported parts.

ORDER CODE

Modular system. Light Bars are integrated LED at ~740 lm per bar (sold as 4-packs); the Control Hub powers/syncs the run with app & smart-home control. Connectors (straight / V / T / Y and the copper Connector Pack) snap together tool-free to route and branch the run. ⚠ These 8 accessory/system records carry NO 7-digit house
