

CELLULAR SHADE

Honeycomb Cellular Shades

The Honeycomb Cellular Shades deliver room-darkening light control and privacy for bedrooms and family rooms, their dense honeycomb cells trapping air to insulate against heat and cold. A child-safe continuous-loop chain raises and lowers the shade smoothly across tall windows, and the neutral color range fits cleanly as an inside or outside mount. Energy-efficient window covering that dusts clean with a soft brush.

PRODUCT	Honeycomb Cellular Shades
