

TRACK HEAD

Mod 11W Cylinder Track Head

Warm, directional light that snaps onto any Mod track and aims exactly where a room needs it. Mod 11W Cylinder Track Head pivots to spotlight art, shelving, a counter, or a reading corner, and re-aims whenever the layout changes. Integrated LED at a warm 3000K with a high 90 CRI renders color cleanly, it dims on standard dimmers, and it runs on the low-voltage 48V Mod track — add several along a rail to layer a whole wall in adjustable light.
