

LANDSCAPE · HARDSCAPE LIGHT

Monolith Hardscape Light

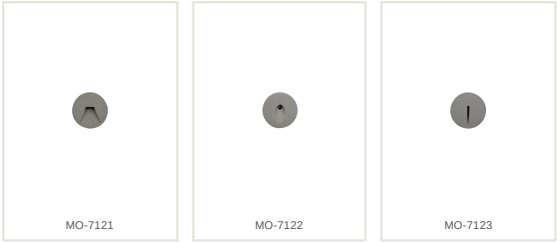

Warm, low-glow light traces the edge of a wall cap, step, or paver with the Monolith Hardscape Light, keeping pathways and seating walls subtly lit after dark without glare. Its solid, cast-concrete housing shrugs off sun, rain, and freeze-thaw seasons outdoors, year after year. Low-voltage and compact, it recesses cleanly into hardscape joints for a nearly invisible daytime look — durable landscape lighting that makes the yard beautiful and safe to navigate past sunset.

FINISH OPTIONS

Gray Concrete GC

PRODUCT	Monolith Hardscape Light
