

OUTDOOR FLUSH MOUNT

Monolith Outdoor Flush Mounts

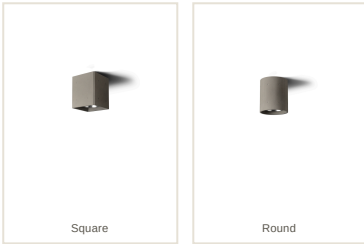

Even, warm light spreads from the face of the Monolith Outdoor Flush Mounts, lighting a porch ceiling, covered walkway, or breezeway without harsh glare or hot spots. The solid concrete housing is wet-rated for direct exposure to rain and the elements, and the low-profile shape sits flush for a clean, architectural look overhead. A square and a round silhouette read equally well on contemporary and traditional homes — weather-ready styling that ties the whole exterior together, season after season.

FINISH OPTIONS

Gray Concrete GC
