

OUTDOOR WALL SCONCE

Monolith Outdoor Wall Sconces

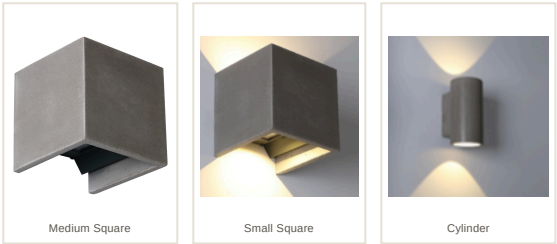

Clean, geometric cast-concrete faces bring a modern, architectural look to the entry with the Monolith Outdoor Wall Sconces. Each casts a steady wash of warm light up and down the wall to welcome guests and boost curb appeal, while the weather-ready build shrugs off the elements season after season. Mounted beside the door or in a pair flanking it, the square and cylinder profiles read equally well on contemporary or transitional homes — durable, modern styling that ties the whole exterior together.
