

2-LIGHT UP/DOWN SCONCE

Pioneer 2-Light Up/Down Sconce

A sleek metal backplate throws light both up and down, giving the Pioneer 2-Light Up/Down Sconce a clean, architectural silhouette. Mounted beside a doorway, fireplace, or bed, it washes the wall with warm light in both directions, softening the room without a single harsh source. The paired up/down beams read as intentional, tailored lighting rather than one bright bulb, and it mounts singly or in a symmetrical pair flanking a focal wall. Offered in White, Black, Slate, and Bronze, in fixed 3000K or selectable-CCT.

FINISH OPTIONS  White WH  Black BK  Slate SL  Bronze BZ
