

AREA-LIGHTING POLE

# Square Steel Poles - 5-inch Shaft

At the top of the range, the 5-inch square steel poles carry area fixtures at a full 30-ft commercial mounting height. The heavier 5-inch shaft and 7 or 11-gauge wall resist twist and sway under wind load, in a corrosion-resistant Bronze powder-coat for large lots and roadways.

FINISH OPTIONS  BronzeBZ

PRODUCT DETAILS

FAMILY  
Eran Steel Poles

PRODUCT TYPE  
Anchor-base area-lighting pole

MATERIAL  
Welded steel · powder-coated

MOUNTING  
Anchor base (bolt-down)

FINISH  
Bronze

CERTIFICATIONS  
Engineered to AASHTO

STRUCTURAL

POLE HEIGHT  
30 ft

SHAFT SHAPE  
Square straight

WALL THICKNESS  
7 - 11 ga (see table)

BASE TYPE  
Anchor base · drilled for fixtures

INSTALLATION

INSTALLATION  
Anchor-base on concrete foundation (by others)
