

RECESSED DOWNLIGHT

Relic Mini Recessed Downlight

A tiny 1.4-inch aperture lets the Relic Mini Recessed Downlight all but disappear into the ceiling while it lays down a soft, warm wash of light. True-to-life 90 CRI at a cozy 2700K flatters finishes and skin tones, and the low-profile trim sits flush on flat or angled ceilings. Compact enough for tight joist bays, it drops into hallways, closets, and small rooms where a full can light won't fit — discreet, dimmable accent light in Black or White.

FINISH OPTIONS ☐ White WH ☒ Black BK
