

LANDSCAPE · PAVER / DECK

Still Paver / Deck Flush Lights

A low-profile round fixture sets flush into a paver, step tread, or deck board, giving the Still Paver Light a nearly invisible daytime look. At night, warm light rims the edge to mark each step, landing, or walkway seam before you find it with your foot, and the sealed, weatherproof body shrugs off foot traffic, rain, and freeze-thaw seasons for years. Wired on a simple 12V low-voltage run and easy to set during a hardscape build, Still is durable landscape lighting that makes the yard beautiful past sunset.

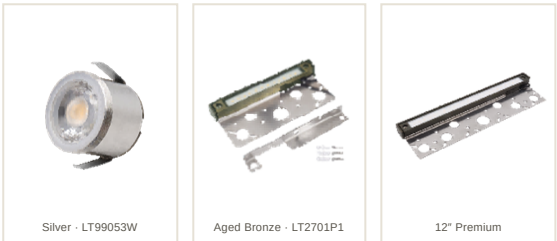

FINISH OPTIONS

Silver SV

Aged Bronze AB
