

PENDANT

Verre Single Pendant

Clean lines and warm, glowing light define the Verre Single Pendant. A single glass cylinder diffuses the LED into a soft, even pool of light rather than a bare, glaring point, casting a warm glow over a counter or table below. Hung on its own over a reading nook or entry, or repeated in a row above an island or bar, it slips into tight spacing between fixtures without visual clutter — a slim, versatile pendant in Black that turns the ceiling into a quiet focal point.
