

WALL SCONCE

Verre Wall Sconce

A vertical cluster of champagne crystal rods catches and scatters light in a soft shimmer for the Verre Wall Sconce. Warm, diffused light spills gently onto the wall around it rather than glaring outward, giving the space a quiet, ambient glow instead of a hard-edged beam. Its compact profile mounts easily beside a mirror, on either side of a bed, or flanking art in a hallway, adding light exactly where a lamp or overhead fixture can't reach — a refined, crystal-shaded accent finished at eye level.
