

INTEGRATED-LED VANITY

Zina Integrated-LED Vanity Lights

Warm, even light spreads across the mirror from the Zina Integrated-LED Vanity Lights. Cylindrical clear-and-opal shades line up edge to edge on a slim Chrome backplate, giving the vanity generous, shadow-free coverage for grooming and getting ready. Integrated LEDs mean no bulbs to replace, selectable color temperature tunes the light warm to cool, and standard-dimmer control sets the mood. Three widths — a 3-light for a standard vanity, a 4-light for a double sink, and a 5-light spanning nearly 30" for an oversized mirror — all in clean, contemporary Chrome.
