HeliosX 35W LED Canopy Light

Bright, even light spreads from the HeliosX 35W Canopy Light, engineered for gas station canopies, parking structures, drive-throughs, and covered walkways. Its low-profile housing mounts flush to the underside of a canopy for a clean, glare-free wash of light with no bulky fixture hanging down. At 35 watts and 4,000 lumens it replaces higher-wattage legacy fixtures while cutting energy use, and the simple surface mount keeps the install straightforward for contractors.

FINISH OPTIONS

Bronze BZ

White WH

PRODUCT DETAILS

FAMILY
HeliosX

PRODUCT TYPE
LED Canopy / Soffit Light

MATERIAL
Die-cast aluminum

LENS / DIFFUSER
Frosted PC lens

MOUNTING
Surface · canopy underside / J-box

LOCATION RATING
Wet
