LHB Round UFO LED High Bay

Flood a warehouse, gym, or distribution-center ceiling with the LHB Round UFO High Bay. Field-selectable wattage and 3-CCT selectable color temperature let one fixture flex from a tight storage aisle to a wide-open floor without swapping models, and the compact round housing mounts fast to a hook or chain, delivering strong, even light straight down where the work happens. Finished in Black for a clean industrial look overhead, with 0–10V dimming for building controls.
