

CEILING FAN

Dawn 52-in. Smart Ceiling Fan

Cool a bedroom, great room, or covered porch year-round with the Dawn 52-in. Smart Ceiling Fan. Its blades move steady, comfortable airflow — up to 6,500 CFM — on a quiet DC motor, keeping the room from feeling stuffy in summer and helping circulate heat in cooler months. An integrated up/down LED adds a warm glow overhead, so there's no need for a separate fixture, and the damp-rated build stands up to a porch or sunroom. Matter-enabled, it pairs with an app and the major voice assistants — or the included remote — and a downrod mount hangs it at the right height for real airflow.
