

CEILING FAN

Base Camp 52-in. Ceiling Fan

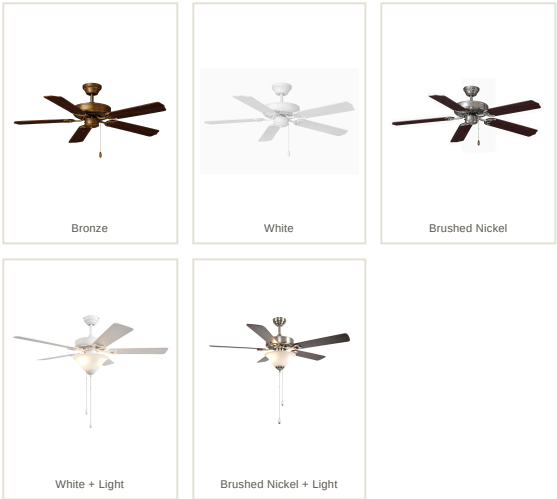

Keep a porch, sunroom, or covered patio comfortable year-round with the Base Camp 52-in. Ceiling Fan. Its damp-rated build shrugs off humidity and occasional moisture, so it holds up where an indoor fan can't, moving strong, quiet airflow — up to 5,000 CFM — across the space on a smooth, efficient motor. Five wide blades cover a generous span, and a downrod mount is slope-ceiling ready. Three finishes — Bronze, White, and Brushed Nickel — each come fan-only or with an integrated light kit (900 lm) for cooling comfort and warm light in one weather-ready fixture.
