

COMMERCIAL LED WALL PACK

ACW 30–60W LED Wall Pack

High-output light covers a loading dock or building perimeter with the ACW 30–60W Wall Pack. Field-selectable wattage up to 60W simplifies spec and stocking across a jobsite, and the full-cutoff optic directs light down and out instead of into the sky, keeping glare off neighboring property. Its die-cast housing is built for exterior duty on a warehouse, retail strip, or parking structure — code-ready, rebate-eligible performance that pays back fast.
